

Madeira

**E-Zee Weblon Plus
Embroidery Backing (250
pcs), Madeira 051WP52,
051WP54 // MD301**

Art.-Nr.: MD301

- E-ZEE WEBLON PLUS is a new, soft and stable cut fleece, which, due to its fine, soft structure, does not stick even to thin fabrics, does not show through when used under light fabrics and is still extremely dimensionally stable and heat-resistant
- Available in two colours
- Suitable for stabilising medium to heavy elastic or stretchable materials such as sweatshirts, functional apparel, fleece products and medium weight woven fabrics
- Very suitable for embroidered items, which are treated in a subsequent finishing process with the heat press and for textiles, which are industrially washed or cleaned
- Washable up to 95°C
