

Virshields®

Disposable Face Mask (Pack of 50), Virshields® VS003 // VS003

Art.-Nr.: VS003

- This mask is classified as a non-medical product and is a non-sterile, single-use product
- 3-layer nonwoven fabric, in the form of SMS (spunbond-meltblown-spunbond) material
- The innermost layer is a nonwoven material that absorbs moisture produced by the wearer
- The outermost layer is water-repellent to protect the wearer from splashes
- The filter layer in the middle is the most important component of the non-medical mask, as it is a barrier to germs
- Plastic nose clip (90 mm)
- Ear loops (3.5 mm-4 mm)
- Due to the pleated design, the mask can be flexibly adapted to the wearer's face shape
- The product is breathable and in everyday use the bacteria filter protects the wearer from dust, pollen and pathogens (e. g. droplet infections and respiratory diseases)
- Pack of 50
- Made in Europe
